

Water Tank Float Valve Kit

- All accessories included
- Allows for effortless filling of a JoJo water tank
- Automatically shuts off when the tank is full
- Easy to fit
- Great quality
- Suitable for use with our vertical and slimline water tanks

Optional hush pipe:

Included to stabilise the float valve and reduce water hammer or bounce (if required) in applications where there are pressure variations.

Ideal Pressure Range

1 to 3 bar
Not recommended for pressure higher than 4 bar

This kit allows for effortless filling of a JoJo water tank with an automatic shut-off.

Whether you prefer to manually fill your tank using a hose, or a more permanent solution that involves connecting it to your plumbing line, this kit contains all the accessories required to do so.
